Period for Reply								
A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.  - Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.  - If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.  - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.  - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).  - Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### **DETAILED ACTION**

### Response to Amendment

1. Applicant's amendment filed on 04/13/03 have been entered in Paper No. 13.

## Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- 3. Claims 1-2 and 14-33 are rejected under 35 U.S.C. 102(b) as being anticipated by Igushi (U.S. Patent No. 5,796,480)

(See the reasons as indicated in the previous office Action dated 12/04/02 in Paper No. 12).

### Response to Arguments

4. Applicant's arguments filed on 04/03/03 have been fully considered but they are not persuasive.

Applicant argued that Igushi ('480) does not disclosed or suggest that reflection of light from windows of the measurement cell that has previously been scattered by the particles.

Application/Control Number: 09/378,666

Page 3

Art Unit: 2877

This argument is not persuasive. Igushi ('480) discloses the claimed invention at figure 1, for example, the computation means, having a CPU (24 of figure 1) via multiplexer (22 of figure 1), an A/D converter (23 of figure 1, a controller (25 of figure 1), for measuring sample (S of figure 1) is smaller than the predetermined specified particle size which have been entered in the CPU (24 of figure 1) for comparing and calculating a high accurate particle size distribution (col.5 lines 60-64) scattering from the as least one window (16a, 16b of figure 1) of the measurement zone (11 of figure 1) is considered as the claimed invention the reflection of light that has previously been scattered by the particles from at least one window of the measurement.

In view of foregoing, it is believed that the rejection of claim 1-2, and 14-33 under 35 U.S.C 102 and 103 are proper.

#### Conclusion

- 5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
- 6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period

Application/Control Number: 09/378,666 Page 4

Art Unit: 2877

will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Examiner Sang Nguyen whose telephone number is (703) 308-6426. The examiner can normally be reached on Monday through Friday from 8:30 am to 5:00 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mr. Frank Font, can be reached on (703) 308-4881. The fax phone number for the organization where this application or proceeding is assigned is (703) 308-7722 or 7724.

Any inquiry of general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (703) 308-0956.
